

CENTER FOR ARMY ANALYSIS OVERVIEW

CAA is staffed with a variety of military analysts, civilian analysts, modeling and simulation (M&S) professionals, and support personnel. The analytical staff possess an extensive blend of background skills. The staff includes analysts experienced in operations research, logistics, geographical information systems, military tactics and strategy, political science, mathematics, nuclear and chemical sciences, electronics, engineering, physics, intelligence, computer operations, data base design, economics, and virtually all Army branch specialties. The Army Modeling and Simulation Office staff provides the capability to educate the Army's Soldiers and Civilians performing M&S activities and promulgates Army's M&S policy.
